Independent Audit Services Agreement/Basic Services Agreement

MiraCosta Community College District Attn: Mina Hernandez, Director, Purchasing, Contracts & Material Management 1 Barnard Drive Oceanside, California 92506

Dear Ms. Hernandez,

We thank you for considering CWDL, Certified Public Accountants ("CWDL") as your independent auditors. We are pleased to respond to the MiraCosta Community College District (the "District") Request for Proposal for the **Independent Audit Services**, for the fiscal years ending June 30, 2026 through June 30, 2030.

CWDL is a regional CPA firm located at 3131 Camino Del Rio North Suite #820, San Diego, CA 92108. CWDL currently audits over 30% of the Community College Districts in California. The Partners at CWDL currently manage the audits of over 35 Community College Districts, 30 Proposition 39 bond audits, 45-auxiliaries and non-profits and 100 K-12 school districts throughout the States of California and Arizona. CWDL was established on January 1, 2014, and operates under California Business License Number 7528, Tax ID Number 90-0916070 and SAM.gov ID Number JGE4HQHZ6CQ9.

We offer the District our expertise in California community college district audits. The in-charges on your engagement fieldwork team will consist **entirely of experienced California CCD auditors**, two of whom also hold a Certified Fraud Examiner (CFE) credential. The quality of our fieldwork teams – the individuals that you and your staff will see and work with – is a key aspect of an overall audit approach that sets CWDL apart.

While many firms offer partner involvement, we go above and beyond with our commitment to having a **partner physically involved for 100% of fieldwork**. When our staff are on-site for any phase of the audit, you can be sure they will be joined by a partner. In addition, our management team consists of experienced California CCD auditors. We believe the combination of our team's experience and our client-focused approach enables us to provide a service unmatched by other firms. We also encourage you to contact our references.

CWDL takes a great deal of pride in our **All-Inclusive Annual Fee**. This fee encompasses a variety of situations that trigger supplemental billings at many of our competitors. Items such as the following will not cause an additional fee:

- Implementation Support for New GASB Pronouncements
- Additional Fieldwork Visits & Scheduling Changes
- Focused Staff Trainings
- Additional Meetings and Presentations

Inclusion of these items in an all-inclusive fee is not industry standard and we encourage you to contact our references and hear directly from your peers as to how they have benefited from the additional level of flexibility and support that our firm provides.

We have read and understood all the requirements listed in the Request for Proposals for Independent Audit Services. This statement certifies our willingness to perform the services as noted in the RFP and indicates that we have completed and duly submitted all forms, certificates and compliance requirements.

CWDL is committed to meeting all reporting and time requirements as noted in the RFP. Our goal is to properly plan the audit to ensure that the District is provided with the proper personnel, hours and resources needed to ensure that all deliverables are provided within the required timelines. We offer our commitment to provide audit report drafts within two weeks of our year-end audit visit. We encourage you to contact our references to discuss our ability to meet required timelines. We will also provide you with direct contact numbers to our partners should any questions arise.

CWDL certifies the sufficient availability of staff, office locations, hours and all other required resources for performing all services and providing all deliverables within the specified time frames as described in the Request for Proposals.

As noted in this RFP, the senior staff assigned are all properly licensed Certified Public Accounts and in good standing with their respective Boards of Accountancy. Furthermore, all team members have a minimum of three years of experience performing audits of Community College Districts similar to the MiraCosta Community College District. See below for a list of staff and associated license numbers. You can confirm this via the license lookup at the California/Arizona Boards of Accountancy websites (www.dca.ca.gov and www.azaccountancy.gov).

RESPONSES TO COMPANY QUESTIONNAIRE

Describe the organization and size of the audit firm.

CWDL is a **partnership that employs over 45 professional staff**. We are a **national** CPA firm, located in California, Arizona and Texas, offering audit, tax and consulting services. We have three partners who specialize in Community College and School District audits, which comprise 90% of our governmental audit practice. We specialize in audits of community colleges, school districts, charter schools, foundations, not-for-profits, and private businesses.

The work will be conducted from our San Diego office. CWDL employs over 20 professional staff at this office, including five partners, two managers, four seniors, and ten staff.

For eleven years, CWDL has focused its expertise in educational finance for California school districts and higher education. We provide high-quality professional auditing services to all of our School Districts throughout the State. In this small, specialized world, reputation is everything. We are an extremely detail oriented, deadline driven, financially stable firm and we encourage the District to contact our references to learn more about the level of service that we provide directly from your esteemed peers.

Importance of Certifications – At CWDL we understand that the Certified Public Accountant ("CPA") designation is a valuable credential for advancing a career in accounting and auditing. It demonstrates a strong knowledge of accounting practice, in addition to knowledge of applicable laws and regulations. The designation of a CPA is widely respected as a gauge of quantitative skills and high standards of professionalism. All lead auditors assigned to MiraCosta Community College District are licensed Certified Public Accountants.

Not just CPAs – In addition to being licensed CPAs, we have two Certified Fraud Examiners on staff who are governmental audit experts. Our CFEs regularly assist our audit clients with forensic services should the need arise. An expert who understands the operations of the MiraCosta Community College District and is also a CFE adds even more to the value that our firm brings to your organization.

Why Our Firm – Two major factors to performing a high-quality audit are: accountability and supervision. CWDL has developed a highly organized governmental audit team that adheres to both. John Dominguez as the engagement partner and Ben Leavitt as the in-field manager on the audit and will supervise the in-field senior and associates. In addition, to keep them accountable to high standards, the files will be reviewed by Dennis V. Maschke to ensure a high-quality audit. Inevitably, during the audit process, questions arise. With a clear chain of command structure, it is easy for the audit associate and senior to understand where they should go with questions. If there are ever issues or findings, seniors and associates will go to their manager to ensure they are evaluating the information accurately. Quality is a core value at CWDL and a well-structured team is one way we adhere to that value.

Another way we provide quality service is through our continual staff development. We understand the changing environments that School Districts face, and it is important that our engagement teams are properly trained and certified. The following shows the list of individuals on the engagement team and their CPA license number. It is important to us that each of our team members are properly certified so they can provide quality service and knowledge to each of our clients.

Audit Philosophy - CWDL feels it is imperative that our clients have consistent contact with the appropriate experts from our firm. We assign an experienced engagement team and encourage regular contact with the partners, managers and senior personnel that are assigned to serve you. All our partners and managers on the audit will be readily available to the District throughout the year, and a partner will be **leading and active in all phases** of the audit.

Equal Opportunity Employer - CWDL is an equal opportunity employer and always maintains compliance with the Civil Rights Act of 1964, the State Fair Employment Act, and all other applicable Federal and State laws and regulations relating to equal opportunity employment, including Executive Order No. 11246 as of September 24, 1965. We do not discriminate based on race, ethnicity, age or religion, and are in compliance with all applicable Federal and State laws and regulations relating to equal opportunity employment.

WORKPAPER RETENTION - All working papers and reports will be maintained at the Firm's expense for a minimum of three (3) years, unless notified in writing by the District. We will make all working papers and reports available upon request to the following agencies:

- State Chancellor's Office
- Federal and State Governments
- Parties designated by the District

Describe the range of professional services performed by the local office

The range of activities performed by our San Diego office include audit, tax and consulting services. We have two partners who specialize in California Community College District audits, which comprise the majority of our governmental audit practice. We are recognized throughout the State of California as an education and governmental auditing firm. In addition to California Community College District audits, we specialize in audits of K-12 School Districts, charter schools, foundations, not-for-profits, and private businesses. We also work with non-profit organizations in the area of tax, audit and accounting services. Our dedicated governmental team audits California Community Colleges year-round which means we are flexible in scheduling and are always responsive to client needs. Our educational audit partners provide direct cell phone numbers to all clients, and pride themselves on being available 24/7 for any client need.

Peer Review

CWDL is extremely proud to provide our peer review report. As members of the AICPA Private Practices Group we participate in the peer review process. The peer review process is conducted every three years. **Included below under the appendix section is a copy of our current quality control report opinion issued in August 2023**. **We are proud to report that the opinion is Pass, the best opinion that a firm can receive**. This opinion was issued over our governmental audit practice as well as our not-for-profit and for-profit audit engagements. We are extremely proud to say that all aspects of our quality control systems have received this opinion. There were no deficiencies noted in the extremely thorough review performed, nor were any identified during the California Board of Accountancy peer review board acceptance process.

AUDITOR TRANSITION

CWDL specializes in California Community College District audits and its partners manage the entire engagement. Because of this, and our focus on regular communication, the transition to a new audit firm will be smooth and effective. We encourage you to speak to our references, particularly those

with which we have recently engaged to hear about the transition directly from their perspective.

To make this smooth and effective transition happen, we will provide you with: trained and supervised staff, a detailed audit plan at each phase of the audit, a detailed timeline, and regular communication on the audit status. We understand an audit can be a difficult time. It is time consuming to prepare all our audit requests while completing the daily tasks of a community college district official. Our mission is to make the audit process as easy as possible. We have a philosophy of helping our clients, answering their questions and providing detailed request to make the process smoother.

AUDIT APPROACH SUMMARY

Part of our planned approach includes assistance in the preparation of the financial statements in compliance with all requirements. The partners, managers and in-charges at CWDL are thoroughly knowledgeable about GASB 34 and 35 and the financial statement preparation. Our partners and managers have assisted all of their district audit clients, as part of the standard engagement (included in the all-inclusive fee) with:

- Compilation of the financial statements including the footnotes
- GASB 34 conversion entries
- GASB 68 Pensions and footnotes
- GASB 75 OPEB and footnotes
- GASB 87 Leases and footnotes
- GASB 96 Subscription-based information technology arrangements and footnotes
- Review and assistance with the capital asset schedules
- Review and assistance with the preparation of the Long-Term Debt schedules and conversion entries
- Preparation of the Management Discussion and Analysis based upon the final audited figures

CWDL is well versed in all GASB standards applicable to our clients. Each year we discuss new standards with our clients and help develop a roadmap for implementation.

To arrive at our opinion, we will employ a risk-based audit approach as required by professional auditing standards. For each engagement performed, we conduct a thorough review of internal control systems, assess control risk and suggest to our client's areas where improvements might be made. Based upon the results of our control examinations we tailor our substantive audit procedures to areas of higher complexity and risk. This approach enables us to keep audit risk at a minimum and ensure the highest level of quality audit service. We take this approach but go the extra mile to thoroughly understand the operations of the District and ensure that we are exceeding the expectations of the District.

CWDL utilizes sampling methodology consistent with industry standards/best practices as prescribed by the AICPA audit and accounting guidance, Uniform Guidance, and generally accepted government auditing standards. On the compliance side of the audit this means that we are using statistically significant samples to ensure any findings or questioned costs can be extrapolated, as required by the State Chancellor's Office. For our substantive sampling, we follow the most up-to-date industry standard guidance to ensure a 95% confidence level. In addition to our sampling we utilize analytical procedures as an integral part of our planning, compliance, substantive, and final audit procedures.

CWDL recognizes that the audit practice of local education agencies relies heavily on the use of computerized software. Because we have extensive experience in these audits, all personnel assigned to the audit are familiar with the most common computerized systems. We have extensive experience with commonly used ERP systems and attendance software and are provided with direct auditor login at many clients. This enables us to complete detailed audit procedures with a minimal impact on your staff.

Pre-audit & Planning Phase

CWDL will meet with the District's key staff at this phase of the audit. We will begin planning the audit services for interim and year-end. We will schedule meetings to discuss significant items and the proposed audit plan. During this phase, we plan to:

- Establish an understanding of services to be performed.
- Identify key personnel and contacts.
- Conduct interviews with management and other key personnel regarding fraud and gain an understanding for the entity's procedures for identifying and preventing fraud
- Perform our risk assessment documentation and determine scope of work.
- Perform our preliminary analytical procedures.
- Propose testing for interim fieldwork as well as establish interim dates.
- Plan and determine the involvement of the entities staff.
- Finalize timeframes related to fieldwork and exit meetings.

At this phase of the audit, we will provide management with a listing of items requested that we will need for the interim phase of the audit. Having this information provided prior to the beginning of interim will help increase the efficiency and timing of audit fieldwork.

Interim Fieldwork Phase

The scheduling of interim fieldwork will be based on the District's agreed upon time. This phase makes up approximately 45% of the total audit and is when we begin our site-testing. During site testing, we will plan the following District work:

- Site testing over attendance reporting
- Gain an understanding of the entities' controls over the financial reporting process.
- Identify key controls over significant processes such as cash disbursements, cash receipts, payroll, budgeting and information systems.
- Testing of key internal controls identified.
- Perform testing over Federal and State Compliance Programs

At the end of this phase, we will provide management with a management letter that outlines a summary of all findings and recommendations that were noted as a result of our interim testing. We will also plan to schedule year-end fieldwork at this time.

Year-end Fieldwork Phase

We will begin our year-end fieldwork once the entity has closed their accounting records and provided the final TB and Annual 311 report. This phase will take place during September or October as agreed upon by the District. During this phase, we plan to:

Perform substantive procedures over the year-end balance sheet, revenues and expenses. This includes using our risk-based approach to design procedures and test details of account balances and transactions as well as analytical procedures.

 Complete any open State and Federal compliance areas that require audit work as of the end of the fiscal year.

 Evaluate and review the quality and sufficiency of audit evidence by Managers and Partners.

This phase of the audit will complete our substantive testing. We will provide management with a management letter outlining a summary of findings and recommendations, including all findings and recommendations noted during interim.

Audit Completion Phase

During this phase of the audit, we will begin preparing the audit report and management letter to present to the District for review. Once the audit report and management letter is approved, we will begin to finalize our audit by doing the following:

- Complete the final analytical procedures.
- Issue the financial audit opinion and opinions over State and Federal compliance.

As noted in our statement of understanding, we will provide the District with completed financial statement drafts no later than two weeks after the completion of year end fieldwork with the final audit report submitted to the District in November or as specified by the District. We will deliver the reports to all appropriate entities as specified by the Chancellor's Office and District no later than the first week of December each year.

In addition to the above, we will present the audit reports to the District's Board and audit committee on the dates requested by management.

USE OF TECHNOLOGY

CWDL believes technology is an important component in providing services to our clients. We currently employ a paperless audit system that provides us with a powerful way to organize, prepare, review, and share audit work papers throughout the engagement. In addition, our software allows us to download data from the financial applications and generate financial statements at the time fieldwork is completed.

Additionally, the use of computer assisted audit techniques (CAAT) software helps to expedite the audit process. We will make efforts to take advantage of your systems to help facilitate the audit as efficiently and effectively as possible. This will enable us to maximize productivity during scheduled fieldwork and minimize follow-ups. The following list provides detail on the use of CAAT software CWDL uses:

• ProSystems FX Engagement – This is the firms paperless audit product. This allows us to work electronically and save both the time and effort associated with maintaining and storing paper. In addition, this program allows us to take the District's trial balance and import into the system to produce financial statements and various reports that are used for testing of account balances.

• Interactive Data Extraction and Analysis (IDEA) – IDEA is a statistical data analysis tool that has the ability to import data from all file types. IDEA utilizes powerful, built-in tools designed increase the audit automation process. Some examples of data extraction and analysis include the ability generate statistical samples, extract data from sources, or build reports based upon testing.

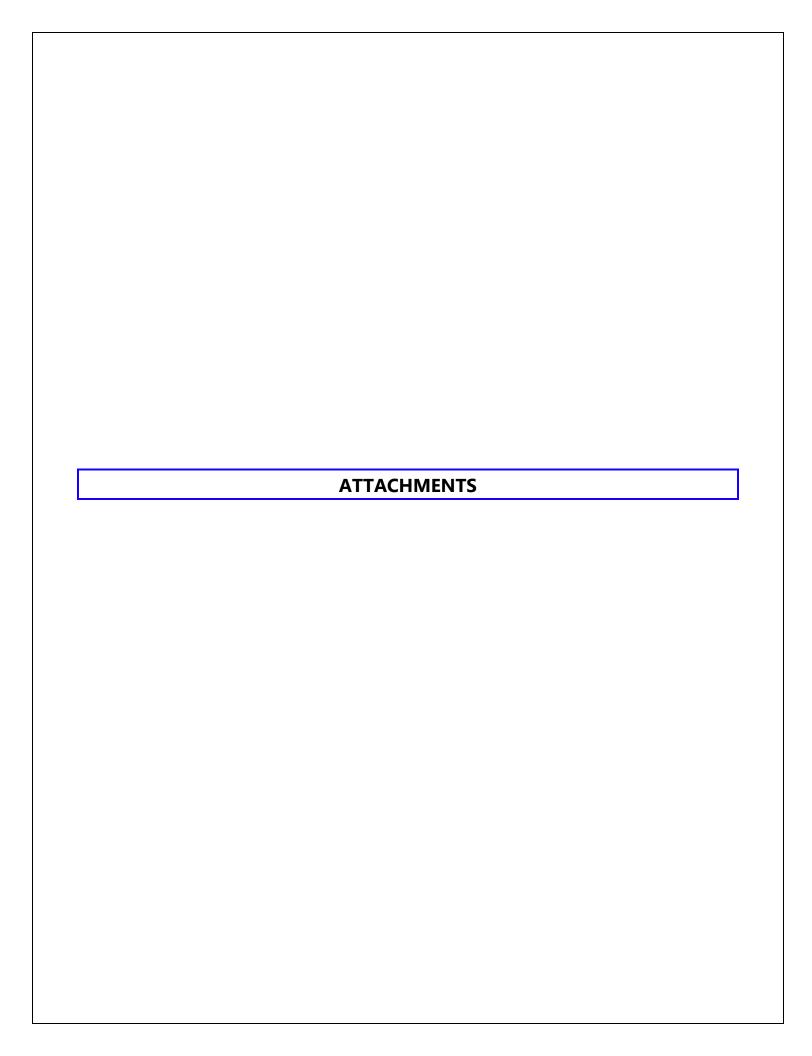

• **Suralink Client Portal** – Our client portal provides a dynamical PBC list, assignment workflow, and a secure file hosting that allows us to provide a more efficient and organized engagement. The portal provides access anytime, anywhere to view or upload documents anywhere in which your connect to the internet. The portal also allows a two-way communication between the District and Firm and provides access to all your documents in a single place.

Report on the Firm's System of Quality Control

August 5, 2023

To: The Partners of CWDL, Certified Public Accountants and the Peer Review Committee of the California Society of CPAs.

We have reviewed the system of quality control for the accounting and auditing practice of CWDL, Certified Public Accountants in effect for the year ended March 31, 2022. Our peer review was conducted in accordance with the Standards for Performing and Reporting on Peer Reviews established by the Peer Review Board of the American Institute of Certified Public Accountants (Standards).

A summary of the nature, objectives, scope, limitations of, and the procedures performed in a System Review as described in the Standards may be found at www.aicpa.org/prsummary. The summary also includes an explanation of how engagements identified as not performed or reported in conformity with applicable professional standards, if any, are evaluated by a peer reviewer to determine a peer review rating.

Firm's Responsibility

The firm is responsible for designing and complying with a system of quality control to provide the firm with reasonable assurance of performing and reporting in conformity with the requirements of applicable professional standards in all material respects. The firm is also responsible for evaluating actions to promptly remediate engagements deemed as not performed or reported on in conformity with the requirements of applicable professional standards, when appropriate, and for remediating weaknesses in its system of quality control, if any.

Peer Reviewer's Responsibility

Our responsibility is to express an opinion on the design of and compliance with the firm's system of quality control based on our review.

Required Selections and Considerations

Engagements selected for review included audits of Employee Benefit Plans and engagements performed under Government Auditing Standards including compliance audits under the Single Audit Act.

As a part of our peer review, we considered reviews by regulatory entities as communicated by the firm, if applicable, in determining the nature and extent of our procedures.

Opinion

In our opinion, the system of quality control for the accounting and auditing practice of CWDL, Certified Public Accountants in effect for the year ended March 31, 2022 has been suitably designed and complied with to provide the firm with reasonable assurance of performing and reporting in conformity with applicable professional standards in all material respects. Firms can receive a rating of pass, pass with deficiency(ies) or fail. CWDL, Certified Public Accountants has received a rating of PASS.
